Dispute Resolution Board Foundation. ***Moving projects forward*** since 1996.

DRBF Regional Conference & Workshop

19-20 November 2015
Grand Hyatt Hotel
Istanbul, Turkey

Dispute Boards (DB) are recognized worldwide for their effectiveness in the real time avoidance and resolution of disputes on major projects. Embraced by government agencies, private owners, and multilateral development banks, Dispute Boards ensure project success through significant decreases in costs and time overruns. International experience is that the vast majority of projects with DBs settle disputes without litigation or arbitration.

The largest and pre-eminent professional group of Dispute Board users and practitioners in the world, the DRBF will present an interactive workshop and conference focused on the application of Dispute Boards in Turkey and the surrounding region, as well as best practices from international practitioners.

The conference will also cover regional legislative developments and perspective on overcoming legal challenges in the region. International and local DB users (project owners and contractors) and experienced practitioners will share their insight on best practices and lessons learned. The first day offers workshops for introductory or advanced users and Dispute Board practitioners, and Day 2 will deal in some depth with the dispute avoidance role of DBs, ICC Rules, implemetation of the process and DB procedures in practice.

November 19: Workshops

- Introductory: Learn why and how to effectively implement a Dispute Board for complex projects.
- Advanced: Explore best practices and ethical issues encountered in the successful implementation of Dispute Boards.

November 20: Conference

- Dispute avoidance and resolution through Dispute Boards; case studies and future opportunities in the region.
- Legislative developments, overcoming legal challenges, the new ICC Rules and DBs on various contract models.

Who Should Attend?

These workshops are designed for contractors, owners, legal representatives, consultants and other construction professionals who wish to gain more experience with the Dispute Board process and to focus on techniques and contract provisions for dispute avoidance and resolution.
